Summary

A dedicated Computer Science student and Full-Stack Developer with a strong foundation in modern JavaScript frameworks (React.js, Node.js) and Python. Experienced in building scalable, modular web applications and contributing to AI model training through prompt engineering and data evaluation. Passionate about writing clean, maintainable code and leveraging technical expertise to develop cutting-edge AI solutions.

Education

Southern Utah University Bachelor of Science
Computer Science 2024 - Present
Focusing on software development fundamentals, algorithms, and logical problem-solving. Actively bridging the gap between theoretical computer science concepts and practical full-stack web development through self-initiated projects and freelance work

Experience

Self-Employed Remote
Freelance Full-Stack Developer Nov 2025 - Present
Designed and developed custom web solutions for international small businesses, significantly enhancing their digital presence and online customer engagement.

- Architected and implemented end-to-end web applications (including e-commerce platforms like Butterfly Gallery and business dashboards for Escalante Auto Repair) using React.js and Node.js, focusing on modular development, clean UI/UX, and responsive design.
- Managed the full development lifecycle, from gathering business requirements to deployment on Vercel, ensuring high performance, scalability, and strict code readability.
- Completed specialized freelance contracts focused on AI model evaluation, executing prompt engineering tasks and verifying the technical accuracy of AI-generated responses.

Skills

Frontend Development
JavaScript, React.js, Tailwind CSS, Vite, HTML5, CSS3

Backend & Tools
Node.js, Git, GitHub, Docker

Languages & AI
JavaScript (ES6+), TypeScript, Python, Prompt Engineering, AI Model Evaluation

Tools & Infrastructure
Docker, Git, GitHub, Vercel, Software Pipeline Setup

Languages

English

Advanced

German

Limited Working Proficiency

Arabic

Native
